

# My experience in Lucca

On **Monday** we had a guided tour of Lucca's historical centre and saw the Ducal Palace, the cathedral and much more. Then we had lunch at a pizzeria where the food was very good. After that we embarked on a treasure hunt. The treasure hunt started pretty great but then it began to rain, a full-on hailstorm. The day ended not long after when we returned to the hotel.

On **Tuesday**, in the morning, we were picked up by bus and went to Pinocchio Park. It was fun and everyone took a lot of photos.

We had lunch and afterwards we visited the Garzoni Garden, which was amazing!

**Wednesday** was my favourite day because we went to the Viareggio Carnival, which has a museum and it's where the carnival floats are made. After lunch we practised a dance that we performed on the beach with all the students.

**Thursday** - We went to the Italian students' school and took part in projects in groups. I made a magazine about the day before and about Carnival in different countries.

In the afternoon, we had the opportunity to see each other's work and then went back to the hotel.

On **Friday** we went back to the school and received our certificates and said goodbye to everyone before coming back home.
